

Projectman
connecting experts

Company Profile

We create an environment and develop community of the best people for realizing changes at our clients.

Projectman is a network of more than 4,000 professionals who deal with **projects, programs, changes, agile management and business analysis and UX**. We are the largest company in the Czech Republic specialising in project management outsourcing. We lecture at conferences and work with the best experts in the market as well as with professional communities.

Our consultants are **carefully selected from the community** – they are people with exceptional potential and proven references. We keep developing their expertise as well as soft skills by training, mentoring, and coaching. We provide our team with further support and care in order to enable them to fully focus on its demanding work with our clients.

We develop our clients in the areas of **project management, agility, business analysis and UX**. We provide training and consulting and host professional events for our community. We care about doing things right and making our clients and our consultants successful.

The diagram features a central circle with the text "Projectman community". A red circle is overlaid on the left side of this central circle, and a blue circle is overlaid on the right side. A red arrow points from the left towards the red circle, and a blue arrow points from the right towards the blue circle. Below the red circle, a list of roles is provided in red text. Below the blue circle, a list of client-related terms is provided in blue text.

CLIENTS
AND THEIR
PROJECTS

Projectman connects client demands with the supply of suitable consultants on the market.

At the heart of this collaboration is a community of proven collaborators.

Community and Partnership

Projectman nurtures partnerships with established organisations in the sphere of project management and beyond.

We strive to develop a community of people and link them to interesting projects which our clients undertake.

Our regular contractors are the core of the community. They either work directly as members of our team or cooperate with us on a professional or business basis.

We know many people with good references with whom we would like to work in the future. To this community, we offer primarily new job opportunities.

A network of 4,000 consultants who know us and who we have in our database. To this group we offer expert content and job opportunities.

Outsourcing

Outsourcing of carefully selected experts is a good alternative to building internal capacity that allows our clients to draw

in highly motivated colleagues with above-standard expertise and a guarantee from Projectman.

- **A Project Manager** manages a project within the limits dictated by time, scope, and budget. He is responsible for addressing changes that have an impact on planning and for optimal utilisation of the resources provided.
- **A Program Manager** orchestrates the progress of multiple projects in time – addressing the priorities, conflicts, and changes that have an impact on the entire project portfolio.
- **A Change Manager** helps people and the organisation as a whole to cope with change.
- **A Business Analyst** analyses and proposes a corporate management system and its individual components: corporate processes and analytical planning, and decision-making activities. He identifies their support through information systems and information technologies. He sets out the effects of the proposed process changes and of the deployment of IS/ICT. He also takes care of the deployment / implementation of standardised company software and proposes its adaptations to corporate processes.
- Agility, as a way of delivering a product and as an innovative approach to work, is a growing trend in recent years. We are able to help with outsourcing the following agile roles: **Scrum master, Product Owner or Agile coach**.
- An integral part of modern development are also roles dealing with the user experience (User Experience - UX). We focus on providing key roles - **UX Designer / Consultant, Product Designer** and **UX researcher**.

EDU Projectman

EDUCATION

- We train IT and business professionals. We are a professional provider of IT courses and softskills. Projectman EDU does everything possible to ensure that you receive the highest quality courses. We follow new trends, look for the most useful methods for practice and integrate the experience of our lecturers from domestic and international projects into practical demonstrations in our training courses and popular practical workshops.
- We provide courses for the general professional public, but we also deliver individual courses according to the specific needs and requirements of our clients, so-called **tailor-made training**.
- Our priority is to deliver quality education that meets market trends and requirements and meets the demands of the client. We focus on 4 core areas, namely **project management, agility, business analysis and UX**.
- **Soft-skills** are another supporting area where we strive to bring innovative approaches to both companies and individuals in the areas of personal, team and organizational development.

CONS Projectman

CONSULTING

- **We help clients with their specific business challenges. Whether it's solving a problem, jump-starting an opportunity, improving management and process performance, or prioritizing activities to fulfill corporate strategy. With us, companies become better!**
We complement your know-how, delivering “second-eyes” and often capacity to places that are not moving forward in “business as usual”. With us, we don't stop with good advice, but focus on concrete actions and are ready to experience the change process with you.
- **We tailor our cooperation to your form and situation.** For big players and corporations, we bring practicality and pragmatism. We know the strategic trends and challenges of digital transformation - and we can build on them and help you turn them into concrete actions and actions. For smaller and start-up companies, on the other hand, we bring the know-how and experience from the “big world” that is often unavailable to them from large consultancies.

- Thanks to the large number of senior experts in our community, we can offer the ideal consultant or small team with specific know-how for your need. We are very happy to deal with cross-disciplinary matters, where it is necessary to smooth the edges and cooperation of individual disciplines and departments.

WHAT CAN WE HELP WITH?

- **Prioritization of activities within the strategy, validation of the strategy and roadmap.**
- **Setting up business demand management vs. capacity planning.**
- **PM and PMO maturity and improvement**
- **Agility in the organization (and its alignment with PM, delivery or UX).**
- **Design thinking maturity and UX/CX.**
- **Tooling and sw process support/digitization.**
